MAINTENANCE SCHEDULE

NORMAL SERVICE INTERVALS

Miles	A	B	C	D
5,000 miles*	A			
7,500 miles	A			
15,000 miles	A			
22,500 miles	A			
30,000 miles	A	B		
37,500 miles	A			
45,000 miles	A		C	
52,500 miles	A			
60,000 miles	A	B		D
67,500 miles	A			
75,000 miles	A		C	
82,500 miles	A			
90,000 miles	A	B		

Tip: For additional service intervals and complete details, see Owner's Manual

Maintenance notes:
Rotate tires every 3,750 miles
Replace cabin air filter‡ once a year or every 12,000 miles†

A. Change: Engine oil/replace filter

B. Inspect: Drive belts, fuel lines and hoses, idle speed, brake lines, hoses and connections, disc brakes, steering operation and linkages, front and rear suspension ball joints, driveshaft dust boots, chassis and body bolts, exhaust system and heat shields, automatic transaxle fluid level
Replace: Air filter, spark plugs (2.5L)

C. Change: Engine coolant

D. Inspect: Engine valve clearance (2.3L), hoses and tubes for emission system
Inspect (2.5L)/replace (2.3L): Engine timing belt†
Replace: Spark plugs (2.3L)

* Special operating conditions
† See Owner's Manual
‡ Denotes optional equipment

This Quick Tips® guide is provided by MazdaTown to make your Mazda ownership experience more convenient. It is not intended to replace your Owner's Manual.

Quick Tips®

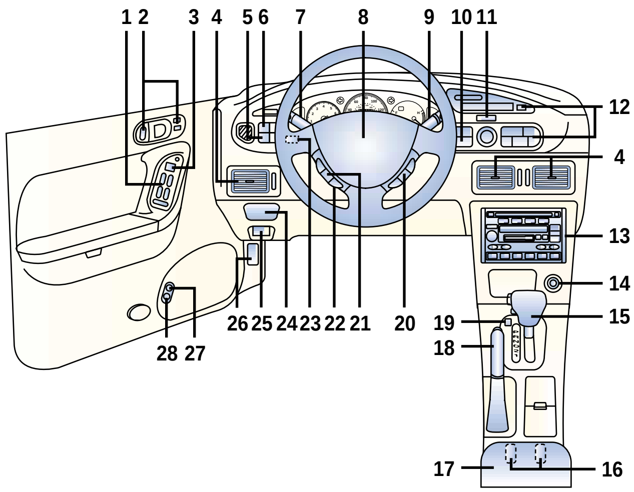

Reference Guide for Controls and Functions

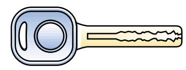

2001

mazda
Get in. Be moved.

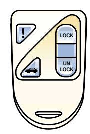

DRIVER'S VIEW

Key
Operates ignition and all locks

Tip: Use key number plate to purchase a new key; store in a safe place separate from vehicle

Remote keyless entry system, see Locks

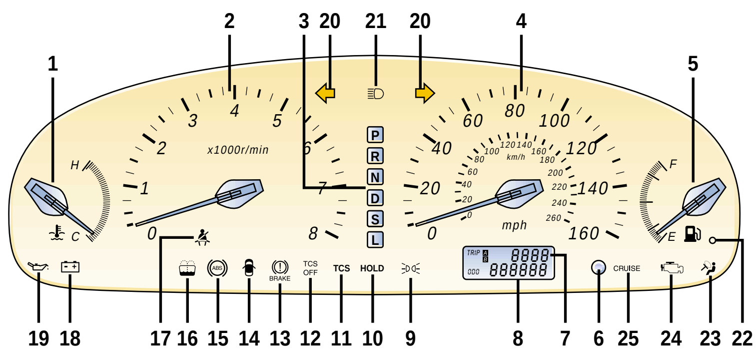

1. **Power window switches,** see Switches
2. **Power door locks,** see Locks
3. **Power outside mirror switch,** see Switches
4. **Air vents**
5. **Cruise control main switch,** see Driver Controls
6. **Fog lights** Press on/off
7. **Turn signal/lighting control lever,** see Driver Controls
8. **Horn/air bag** Press for horn
9. **Wiper/washer lever,** see Driver Controls
10. **Rear window defogger** Press on/off; shuts off with ignition, also operates side mirror defroster*
11. **Hazard warning switch** Press on/off
12. **Climate control panel,** see Climate Controls
13. **Audio system,** see Audio System
14. **Cigarette lighter**
15. **Gearshift lever,** see Transmission
16. **Left/right seat warmer*** To turn on/off; press top/ bottom of switch
17. **Console,** see Console/Trunk
18. **Parking brake lever,** see Console/Trunk
19. **Traction control system*,** see Transmission
20. **Cruise control switches,** see Driver Controls
21. **Steering wheel audio controls,** see Audio System
22. **Auto-tilt steering column** To raise/lower wheel; press switch up/down

    Press AUTO to raise wheel when key is removed from ignition
23. **Instrument panel lighting** To brighten/dim: Turn thumb-wheel right/left
24. **Coin holder**
25. **Hood release handle**
26. **Fuse panel**
27. **Remote trunk release** Press to open trunk
28. **Remote fuel door release**

*Denotes optional equipment

Always check the Owner's Manual for more operating information and safety features

INSTRUMENT CLUSTER

GAUGES

1. **Coolant temperature gauge**
   If above normal range, stop vehicle and turn off engine; check coolant level when safe
2. **Tachometer**
3. **Gear indicator**
4. **Speedometer**
5. **Fuel gauge**
   18-gallon/68-liter tank
6. **Trip odometer reset button**
7. **Trip odometer**
8. **Odometer**

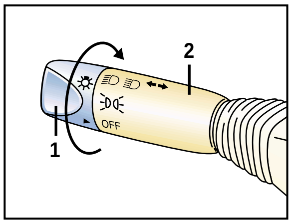

WARNING LIGHTS

9. **Lights on**
10. CRUISE **Hold mode on,** see Transmission
11. TCS **Traction control system*,** Light flashes when in use; dealer inspection required if light remains on
12. TCS OFF **Traction control off*,** see Transmission
13. BRAKE **Brake system**
    Parking brake on/low fluid level
14. **Door ajar**
15. **Anti-lock Brake System (ABS)**
    ABS malfunction, normal brakes only, dealer inspection required
16. **Low washer fluid***
17. **Always fasten safety belts**
18. TCS **Charging system warning light**
    Dealer inspection required
19. **Low engine oil pressure warning light**
    Stop vehicle and turn off engine; check oil level
20. **Turn signals/hazard warning on**
21. **High beams on**
22. **Low fuel**
23. **Air bag readiness**
    Air bag malfunction, dealer inspection required
24. **Check engine**
    Dealer inspection required
25. CRUISE **Cruise control on**

*Denotes optional equipment

Always check the Owner's Manual for more operating information and safety features

DRIVER CONTROLS

Turn signal/lighting control lever

OFF = Lights off

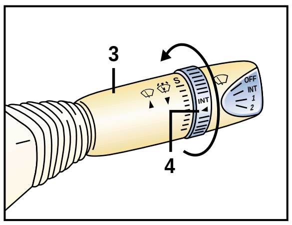

= Tail, parking and dashboard lights on: Rotate knob (**1**) to first notch

= Tail, parking, dashboard and head lights on: Rotate knob (**1**) to second notch

High beams on/off: Push lever (**2**) forward to detent/pull back

To flash high beams: Pull lever (**2**) toward you and release

---

Wiper/washer control lever

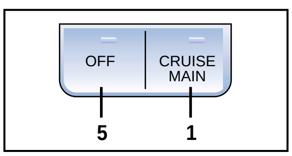

To activate interval wipers: Push lever (**3**) down to first detent and rotate ring (**4**) to desired speed

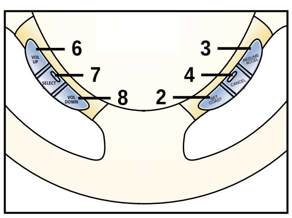

To activate normal speed: Push lever (**3**) down to second detent

To activate high speed: Push lever (**3**) down to third detent

To activate washer: Pull lever (**3**) toward you

Single wipe: Push lever (**3**) forward and release

Cruise control

Operates above 25 mph

Press and release CRUISE MAIN (**1**)

To set speed: Accelerate to desired speed, press and release SET/COAST (**2**)

To decelerate: Press and hold SET/COAST (**2**)

To increase speed: Press and hold RESUME/ACCEL (**3**)

To cancel: Press CANCEL (**4**), tap brake pedal or press OFF (**5**)

To resume preset speed after CANCEL or braking: Press RESUME/ACCEL (**3**)

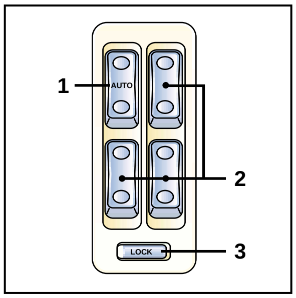

Steering-wheel audio controls

To increase volume: Press (**6**)

To advance AM/FM stations, cassette selections or CD tracks: Press (**7**)

To decrease volume: Press (**8**)

SWITCHES

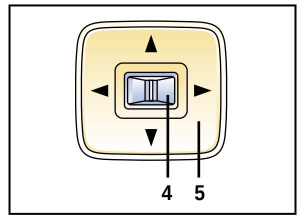

Power window switches
Operates only with ignition ON

All windows controlled from driver's door; passenger doors have separate switches

Driver's window (**1**): "One-touch-down," press bottom of switch and release, window goes down all the way; tap top of switch to stop; press and hold top of switch to close

Passenger window switches (**2**): Press bottom/top of switch to open/close

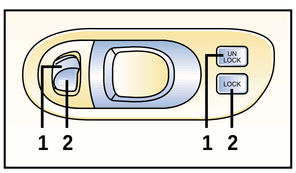

Power window lock switch: Press LOCK (**3**): Only driver's window switches function; push (**3**) again; all window switches function again

Dual power mirrors
Operates only with ignition on

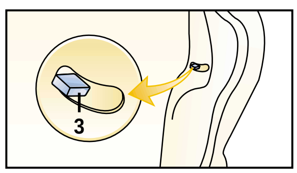

To adjust left/right mirror: Slide selector switch (**4**) left/right, press perimeter switch (**5**) in direction of desired mirror movement

Tip: To lock mirrors in place, move switch to center position

Master front door lock switches
To unlock all doors: Press UNLOCK (**1**) on either switch, turn key counterclockwise in driver's/front passenger's door

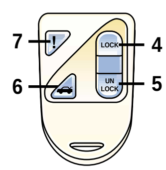

To lock all doors: Press LOCK (**2**) on either switch, manually lock driver's door, or lock either front door with key

Childproof locks
Located at the edge of rear doors

To activate: Push tab (**3**) right; door opens from outside only

To cancel: Push tab (**3**) left

Remote keyless entry system
Functions only with ignition in OFF position

To lock doors: Press LOCK button (**4**); pressing again within 5 seconds causes doors to relock and horn to beep

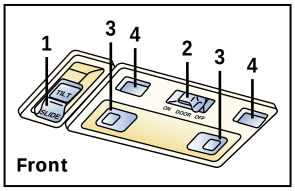

To unlock: Press UN LOCK (**5**) for driver's door; press again within 5 seconds to unlock other doors

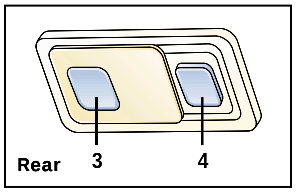

To open trunk: Press [trunk icon] (**6**)

Panic alarm: Press **!** (**7**); horn sounds, headlights/taillights flash; to stop, press (**7**) again or turn ignition to ON position

Always check the Owner's Manual for more operating information and safety features

INTERIOR LIGHTS

1. Sunroof switch
To open: Pull switch rearward until panel is in desired position

To close: Push switch forward

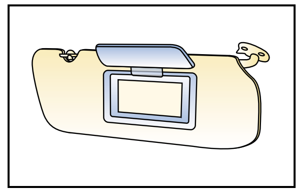

To tilt (panel closed)/to close: Push/pull TILT

2. Dome light
On = Light always on

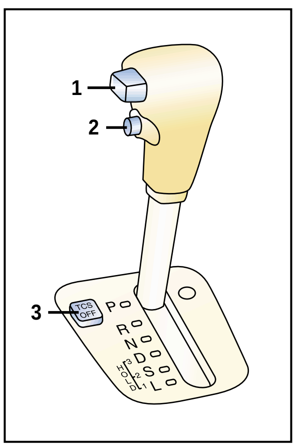

Off = Light always off

Door = Light on when a door is open

3. Map/reading lights
On/off: Press switch (**4**)

Illuminated vanity mirrors
Mirror lighted when cover opened, off when closed

Automatic transmission
P = Park
To move gearshift from Park: Press firmly on brake pedal, then press release button (**1**) on gearshift

Never put moving vehicle in Park

Always apply parking brake when exiting the vehicle

R = Reverse
Always bring vehicle to a complete stop before engaging or disengaging reverse gear

N = Neutral
No gear is engaged; vehicle can roll freely, even on a slight incline, unless brakes are applied

D = Drive
For normal driving: Shifts through four forward gears automatically

S = Second
Provides extra power and increased engine braking

L = Low
Use for engine braking when second gear is not sufficient

Hold mode
Keeps transmission in selected gear, prevents automatic transmission from shifting to another gear

Press (**2**) to activate/deactivate

Traction control system*
Regulates engine torque to optimize traction on slippery road surfaces

Press (**3**) to activate/deactivate

*Denotes optional equipment

Always check the Owner's Manual for more operating information and safety features

SEATS

1. Head restraint
To raise/lower: Press release button (**4**) and pull up/ push down
To move forward/aft: Rotate (driver's seat only)

Power seats

2. Raise/lower front of seat
Move front of switch vertically

Fore/aft adjustment
Move switch horizontally

Raise/lower rear of seat
Move rear of switch vertically

Raise/lower seat cushion
Move center of switch vertically

3. Seatback angle
Rotate fore/aft for desired angle

⚠ **WARNINGS: Always wear your safety belt and properly secure children 12 and under in the rear seat**

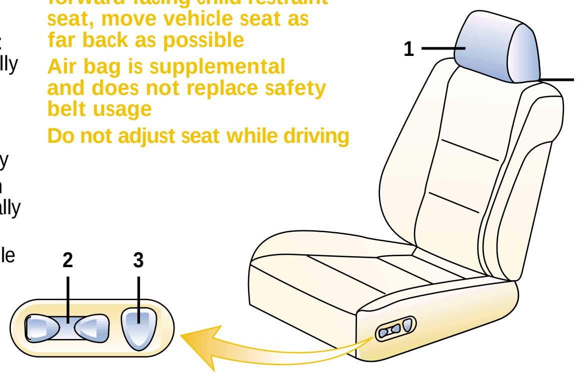

If you choose to install a forward-facing child restraint seat, move vehicle seat as far back as possible

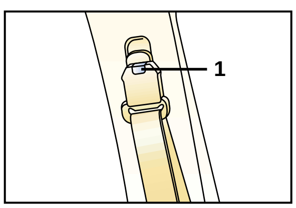

Air bag is supplemental and does not replace safety belt usage

Do not adjust seat while driving

Lumbar support
(driver's seat only)
Located at front of center console
Press top/bottom of switch to increase/decrease firmness

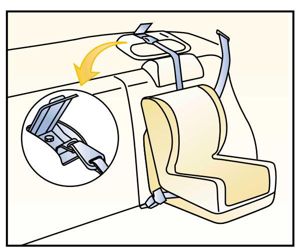

Shoulder belt height adjustment
To raise/lower belt, press button (**1**) and move up/down

⚠ **WARNING: Make sure adjuster locks in position**

⚠ **WARNINGS: Children less than 4 years old and under 40 pounds should always use a safety seat**

Never place rear-facing child restraint seat in front seat

Child restraint seat
Some child restraint systems are equipped with tethers that must be installed on one of the three anchors on the rear seats

To install in rear outboard seats: Use dual locking mode retractor safety belt; see Owner's Manual for proper installation and child seat tether instructions

⚠ **WARNING: Read all information and warnings in Owner's Manual and attached to seat before using child safety seat**

Dual locking mode lap/shoulder belt retractor (front passenger and rear outboard safety belts only)
Emergency locking mode: Belt locks only on hard braking/ cornering or impacts of about 5 mph or more

Automatic locking mode: Must be used when installing child safety seat

To activate: Pull webbing fully out of retractor until click is heard; belt will only tighten

To disengage: Unbuckle belt and allow webbing to retract fully

Climate
Controls

CLIMATE CONTROLS

Automatic climate control

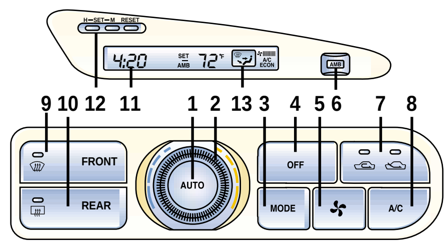

1. Auto
Press to select automatic system operation

2. Temperature control
Rotate left/right for colder/warmer

3. Mode
Press to select
= air to dash
= air to dash and floor
= air to floor
= air to floor and windshield

4. Off
Press to turn off climate control system

5. Fan control
Press to cycle through four speed settings

6. Ambient temperature
Press to display outside temperature

7. Air intake control
Press / for recirculated/outside air

8. Air Conditioning
Press to manually select normal, economical or off

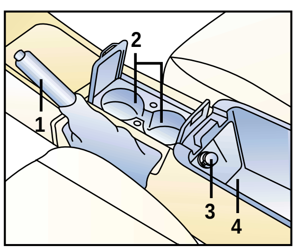

9. Defrost
Press to direct air to windshield

10. Rear window defogger
Press to turn on/off

11. Clock

12. Clock controls
To set: Press (H) hour/ (M) minutes; press RESET to clear minutes

Tip: Fan speed, A/C selection and mode selection are indicated in display (13)

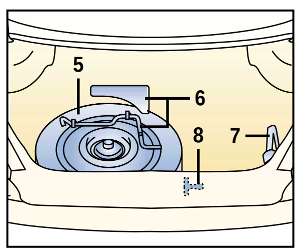

Center console

1. Parking brake
To engage: Pull up
To release: Pull up slightly while depressing button at front of lever, lower parking-brake lever

2. Cup holders

3. Accessory socket
For accessories only

4. Storage bin

Trunk
To open: Use key or remote keyless entry fob

Remote trunk release,
see Driver's View

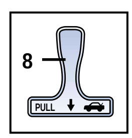

Remote trunk release lock-out
To enable/disable: Press left/ right side of switch (located in glovebox)

5. Temporary spare tire
To change flat tire: Follow instructions in Owner's Manual

⚠ **WARNING: Do not exceed 50 mph with temporary spare**

6. Lugwrench and jack handle

7. Jack

Interior luggage compartment release
Allows you to escape should you become locked in trunk

To open: Pull "T" handle; "T" handle will glow if it has been exposed to light

Always check the Owner's Manual for more operating information and safety features

Console/
Trunk

Audio System

AM/FM STEREO/CASSETTE/CD

1. Power/Volume
Press to turn on/off; rotate to increase/decrease volume

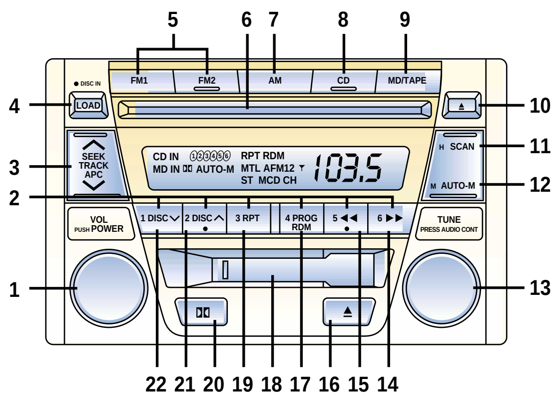

2. Memory preset buttons
To set: Tune to station, press and hold until beep is heard

3. SEEK/TRACK/APC
Radio: Press ∧ / ∨ to automatically seek higher/ lower frequency

CD: Press ∧ / ∨ to select next/previous track

Tape: Press ∧ / ∨ to automatically advance tape to beginning of next selection/replay selection; to stop this operation, press button again

4. Load*
Single CD loading: Press button, WAIT will appear; when IN appears and CD door opens, load CD

AM/FM/Radio with Cassette and CD/6-disc in-dash Compact Disc Changer*

Multiple CD loading: Press and hold LOAD until beep is heard; when IN is displayed load CD; when IN displays again load next CD

5. FM1/2
Press to select between FM1/ FM2 station preset buttons (**2**)

6. CD Slot

7. AM
Press to select AM frequency band

8. CD
Press to play CD

9. MD/Tape
Press to play Mini-disc Player*/ cassette tape

10. CD eject

11. Scan
Press to briefly sample next listenable selections; functions in all modes

12. Auto-Memory
Radio: Press and hold until beep is heard, system automatically scans and temporarily stores 6 strong stations in each band; press again to cancel

13. Tuning/Audio Control
Tune: Rotate counterclock-wise/clockwise for lower frequency/higher frequency

Audio control: Press to select BASS/MID/TREBLE/FADE/ BALANCE: rotate right/left to adjust selected feature

14. Fast forward ▶▶
Press to fast forward tape

15. Rewind ◀◀
Press to rewind tape

16. Eject Cassette Tape

17. Program Random
Press to enable/cancel random play

18. Cassette/Mini-disc* door

19. Repeat
Press to replay current CD/ tape selection

20. DD Dolby®
Reduces tape noise/hiss
Press to activate/deactivate

21. Disc up ∧
Press to skip forward to beginning of next CD

22. Disc down ∨
Press to skip back to beginning of previous CD

*Denotes optional equipment

Always check the Owner's Manual for more operating information and safety features

Audio System

Under Hood

UNDER HOOD

1. Engine oil dipstick
Engine oil should be between F and L marks on dipstick

2. Coolant filler cap
Remove cap only when safe and engine is cool

3. Automatic transmission fluid dipstick
Check with engine on at operating temperature; fluid level should be within v-notches on dipstick

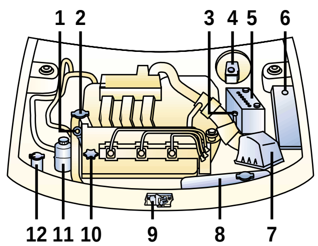

4. Brake fluid reservoir
Level should be kept at the MAX mark on reservoir; fill with DOT 3 fluid from a sealed container

5. Battery

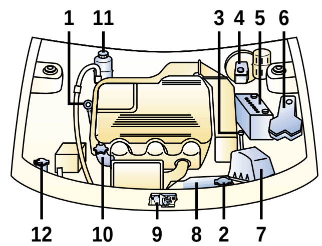

6. Fuse block
(fuses and relays)

7. Air filter

8. Engine coolant reservoir
Level should be between FULL and LOW lines when cold

2.5L DOHC V6

Miller Cycle 2.3L DOHC V6

⚠ **WARNING: Never remove coolant filler or reservoir cap while engine is running or hot; remove only when safe**

9. Hood latch
Pull hood latch up to open

10. Engine oil filler cap,
see Owner's Manual for recommended viscosity

11. Power steering fluid reservoir
Level should be between MIN and MAX

12. Windshield washer reservoir
Fill with windshield washer fluid

Break-in period
First 600 miles: Avoid heavy braking and acceleration; drive at varying road and engine speeds

Tip: Follow same procedures with overhauled engine or when brakes are replaced

Anti-lock Braking System (ABS)
When brake pedal is pressed, ABS automatically reduces hydraulic pressure to any wheel on the verge of locking up

You may feel a slight pulsing of the brake pedal and hear a clicking noise; this tells you the ABS is functioning properly; increase pressure on pedal for maximum braking

Tips: Maintain constant pressure on the brake pedal

Do not pump the brakes

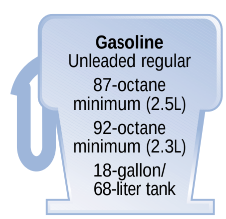

Traction Control System*
Automatically applies and releases brakes to prevent excessive wheel spin at all speeds, especially when accelerating on slippery surfaces

Tire economy and tips
Check pressure at least monthly when tires are cold

Maintain correct front-end alignment and tire balance; rotate tires at 3,750-mile intervals; see Owner's Manual for rotation chart

Tire pressure
Decal on the edge of the driver's door provides tire pressure information

Tire chains*
Install only on front tires; install as tightly as possible and retighten periodically

*Denotes optional equipment

Always check the Owner's Manual for more operating information and safety features
